

DEPARTMENT OF THE NAVY  
COMMANDER, TASK FORCE IA  
FPO AE 09501-6008

26 May 2010

From: Commander, Task Force Individual Augmentee (CTF-IA)  
To: Officers in Charge, U.S. Naval Forces Central Command  
Forward Headquarters Iraq, Afghanistan, and Kuwait  
Supported Commanders, U.S. Central Command Area of  
Responsibility

Subj: GUIDANCE ON REQUESTING CHANGES TO IA AD HOC UNIT PRE-  
DEPLOYMENT TRAINING

Ref: (a) Joint Sourcing & Training Oversight (JSTO) Business  
Rules

1. Purpose. To publish a formal process for IA ad hoc unit commanders to request changes to JSTO training requirements.

2. Background. In recent months, a number of change requests have been submitted by Navy IA ad hoc unit commanders via informal channels to tailor training for follow on IA unit rotations to the CENTCOM AOR. Training requirements for all Navy ad hoc units filling Secretary of Defense approved Request For Forces (RFF) missions are coordinated by United States Fleet Forces Command in accordance with joint training requirements assigned by Commander, US Central Command. While training adjustments may be necessary to help ensure Sailors are ready to perform their assigned missions, such adjustments must be reviewed by the governing agencies ultimately responsible for the training and readiness of IA Sailors. Most RFF training requirements are governed by JSTO business rules (Ref a). The U.S. Fleet Forces Command POC listed below can assist with determining JSTO and non-JSTO mission training requirements.

3. Guidance. Requests for adjustments to JSTO training for IA ad hoc units filling Navy RFF requirements in the CENTCOM AOR must be formally submitted via the unit's Supported Combatant Commander, CTF-IA (CUSNC), CENTCOM, and US Fleet Forces Command. The primary NAVCENT POC is CTF-IA Future Operations Officer, DSN 318 439-4240. Primary U.S. Fleet Forces Command POC is Mr. Jay Truitt, commercial (757) 836-4659/DSN 836-4659 or aubrey.truitt@navy.mil.
